

“Appliqué Your Way Jacket”

Dress up a denim jacket by easily turning fun printed fabric into appliqué designs, then add a few quick embellishments for an extra sparkle.

Created by: Kelly Laws,
Baby Lock Marketing Project Manager

Supplies:

Baby Lock sewing machine
Purchased denim jacket
¼ yard printed cotton fabric
All-purpose thread
Small sharp sewing scissors
Temporary machine spray adhesive
such as Sulky KK2000
Pins
Seam ripper
Hot-fix wand and crystals **OR**
Beads and hand sewing needle

Instructions:

1. From the printed cotton fabric, cut around several motifs.
2. Position the motifs on the front, back and sleeve of the denim jacket. Rotate and move around the motifs until you are satisfied with their placement.

3. Lightly spray the wrong side of the motifs with temporary spray adhesive and return them to the desired location. Pin in place.
4. Thread the machine with all-purpose thread and select a straight stitch or zigzag stitch.
5. Stitch around each motif to appliqué it to the denim jacket.

Note: You may need to open up part of the inner sleeve seam, which allows room to get the sleeve on the machine to stitch the motif.

6. Embellish around and on top of the motifs using the hot-fix applicator wand and hot-fix crystals or by hand sewing on beads.
