

Frilly Fancy Scarf

These scarves are a great accent to any outfit. The gift giving season is in full bloom this time of year. What better to give, than a handmade gift from the heart? These scarves look great; and, they are also quick and easy to make.

Supplies:

Baby Lock Imagine Serger
Baby Lock Audrey sewing machine
3-3/8 yard pieces of knit fabric, in
colors of your choice
Thread to coordinate or contrast
with your fabric
Scissors
Tape measure
Scissors
Fabric marking chalk

Instructions:

1. Cut 6-8" wide strips of fabric the entire width of the fabric. Cut a minimum of two strips, but up to as many as desired. Make each strip 2-3" narrower than the previous strip.

Note: The more strips you use the thicker, and fuller the scarf will be.

2. Thread the serger with thread that coordinates with you fabric.

3. Set your serger up for a rolled hem with a lettuce edge using the following settings:

- Right needle
- Stitch length 1.5R
- Stitch width 3.5
- Differential feed 0 .6

Note: If you are using serger other than the Imagine follow instructions in your manual to set up for a rolled hem with a lettuce edge.

4. Starting at the end of a strip, sew down the entire length of the fabric. When sewing, pull the fabric as it is being feed into the machine. The more you pull the more dramatic the lettuce edging will be. When you start sewing down the second side of the strip, form the ends into points. To do

this simply start at the opposite edge and slowly sew over until you come to the opposite side.

Note: Sometimes it may be hard to tell which side of the knit is the right side of the fabric. When in doubt stretch the fabric at the edge, the fabric will curl towards the right side.

5. Sew all the strips of fabric you are using, changing the tread to match, or accent your fabric as desired.

6. After all the strips have been sewn, find the center of each and mark with a pin, or chalk.
7. Lay the widest strip down, and layer the rest of the strips on top of it, going in order of size from widest to the most narrow matching the center points.
8. Pin the strips together down the center of the entire length.

9. Set your regular sewing machine as follows:
 - Zig zag stitch
 - Width: 4.0
 - Length: 4.0
10. Using a similar color thread, start at one end and zig-zag down the center stitching all of the strips together along the entire length of the scarf.
